

Van Staal spiral gears

Huge, machined stainless steel spiral-bevel gears are used in all Van Staal spin reels. Individually cut out of hardened stainless steel, their design creates tremendous gear tooth contact between the main gear and the pinion. No gear works better under load.

Van Staal Braid-Rated Clutch

This extra-large anti-reverse clutch offers rock-solid hooksets and the ability to use heavy braided lines with unyielding strength.

Van Staal VR

Superb new Van Staal fixed spool reel series, called Van Staal VR, featuring fully-machined 6061-T6 waterproof aluminum body, sealed and waterproof drag system, spiral-bevel drive gear and pinion, MicroClick™ drag tuning accuracy, solid stainless steel center shaft with a titanium nitride ceramic coating to lower the friction coefficient, reduce wear under pressure and improve life expectancy of the reel. Comes with a kit for bail-less conversion.

Standard Technical Equipment:

- Rotor produced in aluminium to be completely distortion-free
- CNC-machined aluminium housing frame and side elements
- Oversized multi-stack Offshore drag system
- CNC stainless steel handle
- Titanium-nitride-coated line roller
- Thick bail arm for optimal balance
- Gears made from a super-hard stainless steel alloy
- Continuous anti-reverse

Code	Model	m / mm	Gear Ratio	Retrieve	BB	yds / lbs	Drag F.	Weight
0610 125	125	310 / 0,22	4,8:1	80 cm	13	400 / 20	16 kg / 35 lbs	448 g
0610 150	150	330 / 0,25	4,8:1	87 cm	13	440 / 30	16 kg / 35 lbs	453 g
0610 175	175	330 / 0,30	4,8:1	95 cm	13	530 / 30	18 kg / 40 lbs	468 g
0610 200	200	365 / 0,30	4,8:1	102 cm	13	500 / 40	18 kg / 40 lbs	482 g
