# COMPACT POPPING FROG

**NEW**

SEE THIS BAIT IN ACTION

Introducing the LUNKERHUNT Compact Popping Frog, a thrilling addition to the Compact Frog line-up that invites water enthusiasts to embark on captivating aquatic adventures. Its concave mouth creates a mesmerizing “spitting action,” while the weedless slick-coated double frog hook ensures better hookup ratios. With pre-trimmed skirts, this lure offers increased walk-the-dog action, captivating both onlookers and underwater creatures. Prepare for unforgettable expeditions with the LUNKERHUNT Compact Popping Frog, and explore the hidden secrets of the water.

## PRODUCT FEATURES

**LENGTH: 2in**  
**WEIGHT: 1/2oz**

- Concave mouth creates bubbles, noise and “spitting action”
- Weedless, slick-coated double frog hook for better hookup ratios
- Pre-trimmed skirts create a tighter action and increases walk-the-dog action

# BOSHI BLADE CRANKBAIT

# UNDERSPIN CRANKBAIT

Meet the exhilarating LUNKERHUNT Boshi Blade Crankbait Medium Dive, a rugged and versatile lure designed to entice fish lurking in the depths. With its remarkable hunting action, this bait mimics the movements of injured prey or fleeing bait fish, drawing in predators to strike. Enhanced by an underspin blade that adds flash and vibration, it becomes an irresistible temptation.

Dive into depths of 4-6 feet and choose from 9 carefully crafted colors to adapt to any fishing conditions. Get your hands dirty, perfect your angling technique, and let the Boshi Blade Crankbait become your trusted ally in pursuing thrilling bites and unforgettable catches.

## PRODUCT FEATURES

**LENGTH: 2.25in**  
**WEIGHT: 1/2oz**  
**DIVING DEPTH: 4-6'**

- Hunting action when running on the lake/river bottom.
- Underspin blade adds extra flash and acts as an added attractor.

# WACKY STICK

Experience a new way of Wacky-Rig-Fishing with the HIVE Wacky Stick. Meticulously designed for flawless wacky rig presentations and crafted with our Ultra Durable Soft Plastic (UDSP), it can handle the toughest battles. With its subtle wiggle on the fall, it entices even the most hesitant fish to strike. The centered O-ring "spot" allows perfect placement for better performance and multiple rigging options (neko and wacky). Each pack comes with 6pcs, ensuring you have an abundance of options on the water.

## PRODUCT FEATURES

**LENGTH: 5in**

- O-Ring slot for exact placement
- Designed to be the perfect wacky rig
- Ultra Durable Soft Plastic
- Subtle wiggle on fall triggers bites
- 6 pcs per pack

# HIVE VERSA SHRIMP

NEW

## PRODUCT FEATURES

**LENGTH: 3in & 3.5in**

The new Lunkerhunt HIVE Versa Shrimp effortlessly combines durability, versatility, and lifelike appeal for unmatched angling success. A stellar addition to our lineup of LUNKERHUNT HIVE saltwater baits, the Versa Shrimp is crafted with our innovative UDSP material and possesses remarkable qualities that set it apart. Its buoyant nature allows it to effortlessly float, while exceptional durability and stretchiness make it formidable against toothy critters. With a lifelike profile and intricately designed appendages, the Versa Shrimp exudes subtle action, eliminating the need for aggressive fishing techniques. Its versatility shines through with various rigging options, including Texas, Ned Rig, jig head, and the Neko Rig, where an articulating tail expertly mimics the motions of a fleeing shrimp.

- UDSP technology: buoyant and made of extremely soft, durable and super stretchy material that stands up to toothy critters
- Lifelike profile and appendages help create subtle action without having to work the bait aggressively
- Various rigging options: Texas, Ned Rig, on a jig head or Neko Rig
- Used as a Neko rig, utilizes the articulating tail to resemble a fleeing shrimp
- 5 pcs per pack

# HIVE SEEKER SWIMBAIT

NEW

## PRODUCT FEATURES

### LENGTH: 3.5in & 4.5in & 5.5in

- Length: 3.5in (HSKSWMB10) & 4.5in (HSKSWMB20) & NEW 5.5in (HSKSWMB30)
- Made from Ultra Durable Soft Plastic material
- Floating soft plastic
- 3.5in - 7 pcs per pack
- 4.5in - 7 pcs per pack
- 5.5in - 6 pcs per pack

Now available in a 5.5 inch size, the LUNKERHUNT HIVE Seeker Swimbait is a favorite staple HIVE bait in our lineup. All baits in this series feature our Ultra Durable Soft Plastic material, which can withstand attacks from large predator fish or small, pesky panfish alike. This floating, stretching, durable soft plastic made in a swimbait-style bait creates a deadly combination of fishability out on the water. The Seeker Swimbaits feature a hard thumping square tail action which influences the tight body roll, presenting a well-balanced lure at any retrieval speed or rigging option. Available in 15 fish catching colors (fresh and salt) and available in 3.5in, 4.5in, and 5.5in sizes.

# 2024 EXISTING PRODUCTS

## WHAT'S IN THE LIVE WELL?

At LUNKERHUNT, we are committed to creating a community of anglers who live for the experience of fishing - the thrill of the hunt, the connection with nature, and the satisfaction of reeling in a catch. We believe that fishing is not just a hobby, but a way of life, and that getting dirty and exploring the great outdoors is all part of the adventure.

Our mission is to foster the passion for fishing, and make the experience of being on the water enjoyable and accessible to everyone. We believe fishing is not just a sport but a way to understand and enjoy the natural environment, a way to bond with family and friends and a way to live a simpler and more fulfilling life.

The following pages of this catalog are dedicated to highlighting new 2024 products that showcase our commitment to equipping anglers with the most versatile and effective lures available.

For in the pursuit of fish, there is no greater thrill than the hunt itself.

# HIVE

## GAMEFISH

### BAITS

The Lunkerhunt HIVE Series line of baits is made with our Ultra Durable Soft Plastic that will stand up to catch after catch unlike most other soft plastic baits.

It's not only durable, it also floats, allowing this bait to move naturally and create action that no fish can resist. Watch for more HIVE baits being launched in the future.

# VERSA WORM

When one bait is able to transform into multiple iterations of itself, it quickly becomes a staple in any tackle box. The new Lunkerhunt Hive Versa Worm is that bait. Because this lure is made with Lunkerhunt's U.D.S.P, as all hive baits are, it allows the bait to become what you need it to be in any situation.

This bait is able to thrive with Piku Piku style finesse topwater fishing. You can Texas or Carolina rig the bait to bring it down into the column, or Neko or Wacky rig the lure and watch this bait twitch in the water column. You can drop shot it as well to bring the worm face to face with fish. This versatile bait excels in transforming itself to become your go-to lure on the water.

ALEWIFE

# VERSA FISH

Bringing the same versatility, durability, and fishability as the Versa Worm, the Hive Versa Fish presents itself with a minnow/shad profile to help you land fish using a wide range of techniques. This bait also has the benefit of being used as a trailer for some of your favorite spinnerbaits, NED rigs, or vibrating jigs.

The spade tail of these durable lures will react with the slightest of movements in the water, just begging fish to bite. Made with Ultra Durable Soft Plastic, this bait will stretch, bend, take a beating, and withstand those predators to keep you fishing longer without the need to replace the bait.

# hive

# NED DRONE

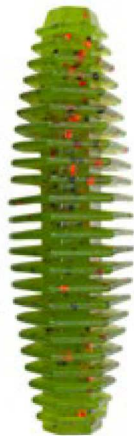

The Lunkerhunt Hive NED Drone pairs one of the hottest fishing styles with Lunkerhunt's U.D.S.P material to bring you a bait that can be fished longer before needing to recast your line. Made with Ultra Durable Soft Plastic, these lures can withstand lots of stretching and pulling from the relentless teeth of predator fish.

The NED Drone features a deep-ribbed solid body that will float and present itself vertically in the water when rigged with a NED jig head. This combination will generate higher hook-up ratios on even the smallest of nibbles, bites, and attacks.

# HOVER SHOT

Presentation is key to drop shot fishing, and the Lunkerhunt Hive Hover Shot is able to present itself as a Goby, Leech, or small baitfish while keeping that perfect horizontal presentation fish and fisherman desire. Featuring a deep-ribbed body and spade-action tail, these lures are designed for fish to hold on to longer, allowing you to set the hook. Featuring Lunkerhunt's U.D.S.P, these baits are meant to last longer on your hook so that you can spend your time fishing instead of replacing.

# HEXA GRUB

The Lunkerhunt Hive Hexa Grub is a single, curly tail grub bait made with U.D.S.P. Ultra Durable Soft Plastic. It is predator proof, extremely stretchy and can withstand attacks from all species of game fish. The uniquely tapered curly tail on the Hexa Grub creates action with subtle movement and a bonus thumping kick when retrieved at a medium or fast speed. These two features paired with the heavily ribbed body create a curly tail grub that works well in both clear or stained water. The Hexa Grub is a versatile bait and can be used in a wide range of fishing techniques, and will be a must have product to add to your tackle box.

# TANDEM TRAILER

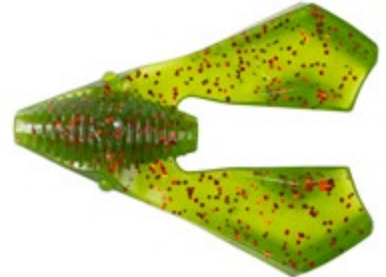

The Lunkerhunt Tandem Trailer is a great addition to the HIVE line up of Ultra Durable Soft Plastic Baits! The floating material along with the shape and design of this bait will generate action on the back of any bait it is rigged on, creating an even more deadly bait in the water! As the names says, working in Tandem with your jig, swim jig, or favorite baits, you cannot go wrong.

# HIVE MICRO BAITS

**ULTRA  
DURABLE**

**SUPER  
SOFT**

**SUPER  
STRETCH**

**FLOATING  
PLASTIC**

**PREDATOR  
PROOF**

The Lunkerhunt HIVE Series line of baits is made with our Ultra Durable Soft Plastic that will stand up to catch after catch unlike most other soft plastic baits.

It's not only durable, it also floats, allowing this bait to move naturally and create action that no fish can resist. Watch for more HIVE baits being launched in the future.

# MICRO RELIC

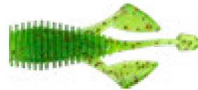

The Hive Micro Relic features deep ribbing throughout its body, which increases the amount of time a fish will hold on to this creature-style micro bait. The two claw-like appendages are divided to increase action, and its wispy stinger tail undulates with the slightest of movements.

# SKITTER LIZARD

The Skitter Lizard by Lunkerhunt keeps with our drive to create new, cutting edge, innovative ideas and be first to market with them. The Skitter Lizard is a soft body lizard that provides the angler with an opportunity to fish top water in a very different way. From the soft curly tail that churns up the water to the perfectly placed weedless hooks and the swimming arms, this bait will blow the minds of all that see it in action.

PHANTOM SPIDER  
DOCK SPIDER

# PHANTOM *SPIDER*

# PHANTOM SPIDER

The Phantom Spider looks as good as it fishes. It features a hollow body weedless design and walking legs that stride, glide, and twitch as the spider is worked across the water surface. The Phantom Spider features a self-righting ballast in its sternum to ensure a consistent natural action that aligns with the realism of the design.

Weedless Cupped Face

# YAPPA FROG

The Lunkerhunt Yappa Frog is a hollow bodied topwater frog that ploughs the water surface. The Yappa Frog mimics a frog swimming on the water surface and is capable of generating several different topwater actions. On a straight retrieve, the Yappa Frog produces a tight shimmy action. Working it on slack line will generate wide swings. The Yappa Frog also features a flexible transparent bill that generates amazing action and makes the Lunkerhunt Yappa Series truly unique.

# YAPPA BUG

YAPPA BUG  
FIREFLY  
AMBER

The Lunkerhunt Yappa Bug is a topwater lure that has been designed to disturb the water surface while mimicking the North American Waterbug. The waterbug is a common forage of bass and other gamefish species. The Yappa Bug is capable of generating several different topwater actions: straight retrieve for a tight shimmy action or work it on slack line to create wide swings. Measuring 2.75in in length and weighing ½ oz, the Lunkerhunt Yappa Bug features a flexible transparent bill that generates amazing action that makes the Lunkerhunt Yappa Series truly unique.

Prop Series

# PROP TURTLE

The Lunkerhunt Prop Turtle is great for covering water and hauling in fish. It casts far and blasts out a bubble trail that calls fish in from a distance. The Prop Turtle excels in open water and crashes through light cover like a plough. Its unique shape and prop feet displace water and create a wake that fish can't resist. When fish hit, a full set of weedless hooks is ready to greet them. The hook system on the Lunkerhunt Prop Turtle has been designed to deflect from cover, but hang on to fish.

The Lunkerhunt Prop Turtle is available in four fish catching patterns.

LENGTH: 1.75in  
WEIGHT: 1/4oz

## COMPACT FROG

Pro and avid anglers have been modifying their skirted frogs for years to create a smaller target for bass to hone in on. Anglers trim skirted legs and choose frogs with smaller profiles that bass can eat in a single strike.

The Lunkerhunt Compact Frog has been designed for maximum efficiency and high percentage hook sets. It features short skirts, a compact body design, short wide gap hooks, and delivers high buoyancy right out of the pack. The Lunkerhunt Compact Frog has a smooth, consistent walk that pushes water and simply catches fish!

**TWO SIZES:** CPTFFX - LENGTH: 2.25in WEIGHT: 1/2oz  
LCPTFFX - LENGTH: 2.5in WEIGHT: 3/4oz

COMPACT FROG  
BLUE GILL

# POPPING FROG

POPPING FROG  
BLUE GILL

The Lunkerhunt Popping Frog™ calls fish in by creating a surface disturbance. Its concave face catches water, causing popping and spitting noises. The swimming legs of the Popping Frog create explosive strikes!

Popping Frogs feature a weedless design and hollow body construction. The Popping Frog's supersoft hollow body compresses quickly under the slightest amount of pressure. When it does, sharp, high quality, upturned hooks are ready for the hookset.

The Popping Frogs generate tons of action with minimal movement. They can be worked along edges, through grass, in pockets and on open water.

## THE POPPING FROG IS AVAILABLE IN 2 SIZES: 1/2oz & 1/4oz

# COMBAT FROG

COMBAT FROG  
CANE

The Combat Frog™ has been designed to get big fish out of the harshest conditions. The tapered nose helps the Combat Frog pass smoothly through heavy cover such as mats, weeds, and reeds. An enlarged air bladder helps it float high in the water and simultaneously shields the hooks, making them weedless. Its large, oversized hooks and super soft hollow body construction are gauged just right to create high hook-up percentages.

LENGTH : 2.5in  
WEIGHT : 3/4oz

*Soft Body Walking Frog*

# FROGLET

The Lunkerhunt Froglet casts well and walks easy. Simply change your cadence to go from a slow glide to a noisy 180 degree swing that throws water, but hangs in the strike zone. The Froglet features a weedless hook design, super soft hollow body construction, and sharp, upturned hooks that lock into fish.

Available in both 3in, 1/4oz (FGLT3XX) and 4in, 1/2oz (FGLT4XX)

# POPPING BUG

The Lunkerhunt Popping Bug floats high and is made of super tough TP Foam that gives it the durability needed to withstand hit after hit during punishing attacks. It pops and gurgles water on the pull, and drops on the pause, resulting in better hookup ratios.

Rigged and ready for a fight with a 4/0 wide gap hook, the Popping Bug excels in open water and the thickest of weeds.

# BAIT SHIFTER

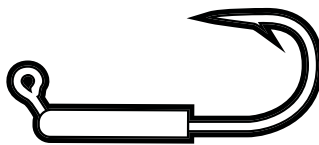

The Bait Shifter Series by Lunkerhunt makes rigging baits fast and easy, while offering a natural presentation that fish can't resist. Featuring a unique chamber running through them, Lunkerhunt's Bait Shifters are designed to allow Bait Shifter jig heads to slide on and off quickly and effortlessly. No more worrying about threading baits straight or tearing them up in the process!

The entire Bait Shifters line is available in natural feeding patterns that mimic some of the most common and popular freshwater and saltwater gamefish forage, and reaction patterns that drive fish wild.

BSJIG02  
3/8oz - 4/0 Saltwater Hook

Pre-Rigged

# FINESSE BAITS

Lunkerhunt's Pre-Rigged Finesse baits are ready to fish right out of the pack. Each Lunkerhunt Finesse package comes with one rigged body and two spares. Pre-rigged finesse baits target a wide variety of freshwater and saltwater gamefish species. The quarter ounce jig head is heavy enough to cast on most rod and line configurations but light enough to keep the bait resting gently on the bottom. Lunkerhunt Finesse Baits have the perfect combination of weight and flotation that allows the bait to stand up off the bottom and to move with the action of the retrieve and current.

# DESCEND CRAWFISH

The Descend Craw features claws, antennae, and a heavily salted abdomen that give it a fast sink rate to quickly get it to the bottom of the water column. The claws of the Descend Craw remain lift on the fall and when being worked along the bottom making it appear like a crawfish in a defensive position.

Descend Series

# SALAMANDER

The Descend Salamander effectively covers the water column with a moderate sink rate and its seductive curl tail action.

You can burn it along the surface for a waking action, you can yo-yo it and swim it through the mid-water column, or slow roll it along the bottom to generate hits. The salt content of the salamander makes it deadly effective in a wide range of fishing conditions.

# FETCH

FETCH  
TENNESSEE SHAD  
PERCH

The Lunkerhunt Fetch is a professional grade swimbait that is designed for anglers of all skill levels. Developed collectively with fishing pro Matt Arey, this signature series bait will catch a wide range of fish.

The Fetch Swimbait casts far and has a neutral and steady action under fast or slow retrieve speeds. This enables it to stay in the strike zone longer, even at slow speeds. The Fetch resembles live bait, and predator fish simply cannot resist it.

# LUNKER STICKS

With its wide range of uses, Lunkerhunt Lunker Stick™ style baits have quickly become a favorite with anglers all over the world. As versatile as they are productive, Lunker Sticks feature a 5 inch long salt impregnated body. Lunker Sticks have a steady sink rate that is fast enough to allow anglers to cover water but slow enough to create a subtle fish triggering flutter action on the fall.

## LEECH

The Lunkerhunt Leech has an anatomically correct design that creates a natural ribbon-swimming action. This is how a leech would appear in the water when it feels threatened.

The Leech has two rigging positions: in the nose, or in the tail for a more natural presentation. It has a neutral buoyancy that creates a natural action. Fish protein has been impregnated into the plastic for added attraction.

Balanced to Perfection

# SPUD

The Lunkerhunt Spud™ is the ultimate jigging spoon. Balanced to perfection, the Spud is designed for peak performance. Multi-faceted surfaces reflect light while feathered trebles pulse as the Spud cuts through water.

You can mimic injured bait by pounding the bottom for a reaction strike, or lift and drop at different depths to catch feeding fish. The Spud calls fish in and generates strikes no matter how the fish are biting.

SPAWNER - BLUE GILL

Natural Series

# NOSE DOWN STRAIGHT UP

Lunkerhunt Nose Down Straight Up Jigs™ imitate baitfish feeding. Pound them into the silt to draw the attention of nearby fish. Swim or suspend the bait for fish that are high in the water column. The Nose Down Straight Up features an extended hook shank that is great for tipping with soft plastics or bait.

*Fast Sinking*  
**TRUE BAIT**

The Lunkerhunt True Bait™ features a new technology that brings lead to life. The True Bait is 1.75 inches in length and weighs 3/4oz. It has a finesse minnow profile that catches fish.

The True Bait is a fast sinking lure that has a low profile. It excels in heavy current, deep water, when fish are suspended, and when long casts are required. The True Bait has a subtle swimming action and an equally subtle presentation that generates strikes. When they do, two sticky strong treble hooks will help you land the fish.

LENGTH: 1.75in

Topwater Surface Bait

# LINK

The Link™ is a great topwater lure for locating active fish and generating explosive strikes.

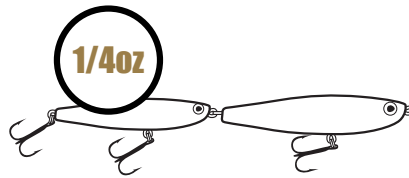

The Link features a hinged two bait approach with a reinforced internal stringer. The result is an easy-to-use bait that floats high, has extremely realistic action in the water and withstands the punishment of fish after fish.

The Link comes in two styles; one mimics baitfish fleeing or chasing each other on the surface, and the other pattern resembles a snake slithering along the surface. You will have a hard time telling the difference between these lures and the real thing, and... so will the fish!

Topwater Surface Bait

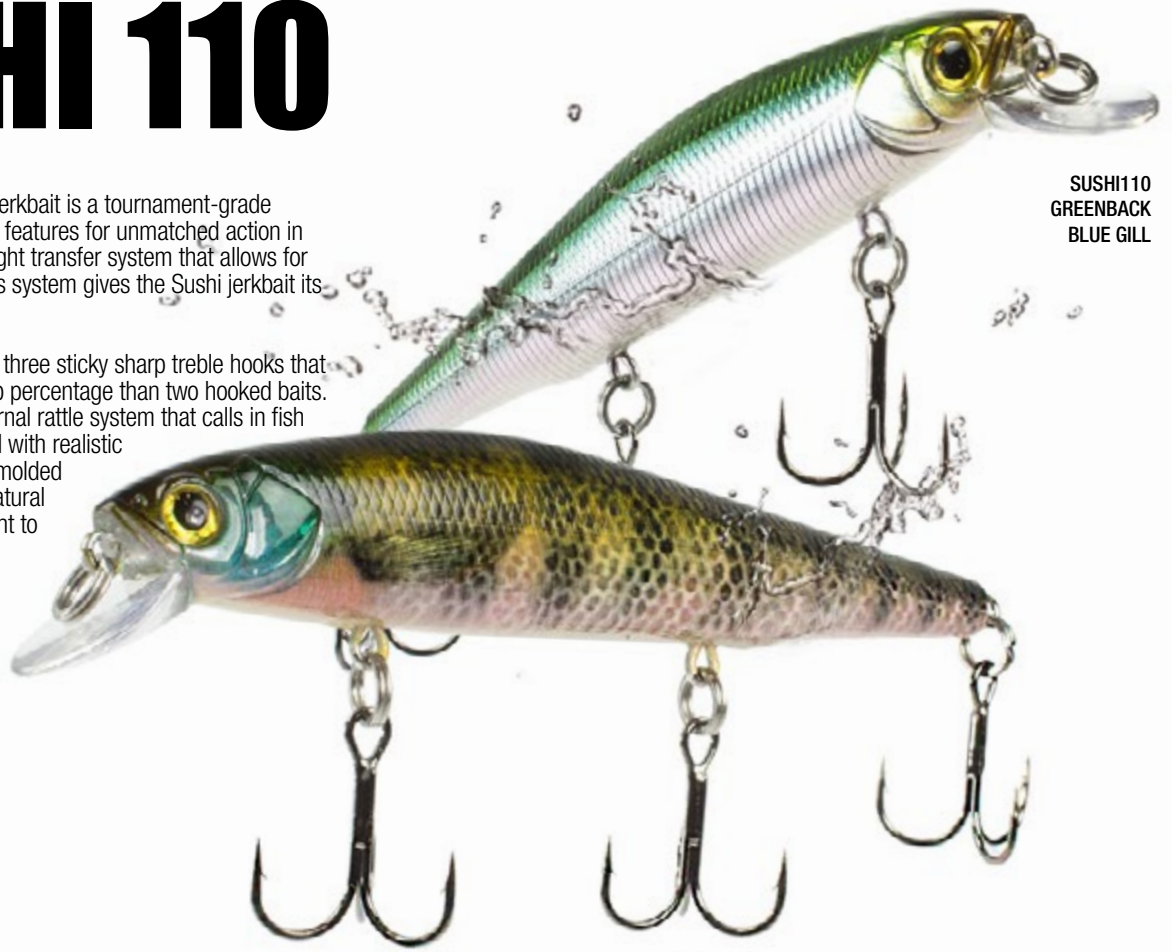

# SUSHI 110

The Lunkerhunt Sushi 110™ jerkbait is a tournament-grade ripbait that delivers several key features for unmatched action in the water. Equipped with a weight transfer system that allows for maximum casting distance, this system gives the Sushi jerkbait its wide, erratic, darting action.

The Sushi jerkbait is fitted with three sticky sharp treble hooks that provide a much higher hook-up percentage than two hooked baits. It also features a very loud internal rattle system that calls in fish from greater distances. Loaded with realistic details, including 3D eyes, 3D molded gill plates, and Lunkerhunt's Natural Series paint jobs, you don't want to leave the boat dock without a Sushi 110 jerkbait.

# glitch blade crankbait

The Glitch Blade is designed to take traditional crankbait fishing to the next level creating a cutting-edge hybrid between a crankbait and a blade baits.

The Glitch Blade has an aggressive rolling action easily deflecting weeds, brush, and structure while entrancing fish with its noise and flash. This shallow diving lure excels with both fast and slow retrieve speeds when hunting for active fish.

# Swing Spoon

Fishing Spoons have been around for a long time and are a staple bait with no room for innovation....or so you might think. Think again: The new Lunkerhunt Swing Spoon combines the benefits of a Weedless Spoon with the attraction of a Spinner Bait. Apart from the great flash of the spinner blade, the Swing Spoon also has a unique side-to-side swinging action. It comes in 6 fish-catching colours, and can be customized with a soft plastic trailer on the back hook, as well as any other accessories to the eyelet on the bottom of the bait.

# Boshi Blade

## CUTTING EDGE

The Lunkerhunt Design Team has once again outdone themselves with the Lunkerhunt Boshi Blade! This bait is a must-have for every angler as it will provide a profile and action like you have never seen before. This cutting edge bait, rigged with two trebles and a spinner attached, can be fished by jerking it to provide the erratic movement of a dying fleeing baitfish or you can cast and retrieve to provide great action and flash from the undermounted spinner.

# BATTLE BEETLE

**2.25in  
LENGTH**

**5/8oz  
WEIGHT**

Armed for a fight, Lunkerhunt's Battle Beetle targets fish like a homing missile. A slow retrieve will make this compact, single-jointed lure plod across the surface with a wide wobble, displacing water to attract attention. Increase your retrieval speed to tighten up its shimmy, forcing the beetle to dip just below the water surface where feathered treble hooks create additional temptation.

The Battle Beetle's uniquely jointed body features a realistic side-to-side motion that produces an authentic beetle-like clacking that fish can't resist. Just count down to detonation, because fish will blow up the water surface attacking this lure.

Predators looking for an easy meal usually pick off the weak, slow, or injured in a pack. Why not offer curbside pickup on their next order?

Lunkerhunt's Easy Prey hardbait mimics a wounded baitfish kicking through its final moments, making it an easy target for your next catch.

This double-jointed lure sits horizontally in the water, and is dressed with three feathered treble hooks giving it a unique presentation at rest, and a high hookup probability in action.

Once you start a retrieve, it kicks back to life with a vertical wobble just like an injured baitfish. At rest, this lure will float back up in the water column, driving fish crazy.

# CRASHER JIGS

The Lunkerhunt Crasher Jig was designed with the saltwater angler in mind. It features a lead-free body and salt-resistant long-life design. It excels in saltwater conditions and has a unique flutter action that can be easily generated using a wide range of fishing techniques, including: jigging, casting, speed reeling, and trolling. Every Crasher Jig features premium double assist hooks to maximize hook-ups and landing ratios. Crasher Jigs are available in two sizes and six patterns.

LENGTH: 4in & 5in

# MANTLE

The Lunkerhunt Mantle is a one-of-a-kind pre-rigged squid/cuttlefish hybrid that has been designed for inshore fish species. The Lunkerhunt Mantle is great for jigging, casting and trolling. It looks just like a squid or cuttle fish working through the water column. It has tantalizing tentacles, flowing fins, and its natural patterns mimic squid and cuttlefish in their natural environment.

A through wire weight system rated for 50 pounds, and saltwater ready double-assist hooks are at the business end of this innovation. Its soft yet durable body adds to the Mantle's realism and function.

# NEEDLE JIG

The Lunkerhunt Needle Jig™ has a cylindrical torpedo like shape that cuts through the water and gets quickly into the strike zone. A single dressed assist hook compliments the Lunkerhunt Needle Jig's clean design. It creates limited drag in the water, but a nice secure hook-up when fish bite.

# FLUTTER JIG

Lunkerhunt Flutter Jigs™ have a unique non-symmetrical tapered shape that cause them to flutter and tumble on the fall, while double dressed assist hooks flail seductively through the water, mimicking a dying or battered baitfish in the water.

# CUT BAIT JIG

The Lunkerhunt Cut Bait Assist Jig™ combines the characteristics of the Lunkerhunt Flutter Jig and the Lunkerhunt Needle Jig. It's spearhead-like shape with irregular facets cause it to twist and flutter through the water while its elongated shape causes it to cut like a knife, diving and twisting to the intended fish-catching depth.

# WIRE ARMS

When a bit of flash is required to draw fish in, Lunkerhunt Wire Arms are the ticket. They are designed for both freshwater and saltwater conditions and can attach to almost any lure. Wire Arms feature a twisted elbow to prevent line-slippage. They also have an easy-attach clasp, and a heavy gauge wire construction.

Lunkerhunt Wire Arms are available in Willow Leaf and Colorado blade styles. Each package comes with two wire arms, one gold arm and one silver arm.

Weedless

# MUSHROOM HEAD JIG

**MSRP: \$5.99**

Lunkerhunt Weedless Mushroom Head Jigs are great for soft plastics, especially Lunkerhunt Finesse Baits. They are built around a premium, 90 degree, black nickel baitkeeper hook that securely holds plastics in place. The nose of the jig is rounded and has weight forward engineering that lifts plastics upright when sitting on the bottom, but pendulums around to create a horizontal presentation on the retrieve.

Lunkerhunt Weedless Mushroom Heads have 4-units in a package.

WEIGHT: 1/4oz

Live Bait Sinker

# WALKING DROP SHOT

Lunkerhunt Walking Drop Shots™ provide a cost-effective approach to an innovative modern technique. A fusion of modern and traditional bait rig systems, the Lunkerhunt Walking Drop Shot & Live Bait Sinker is a must have for any anglers that drift, drop shot, or cast live bait or plastics. The walking weight design prevents hang ups and snags while the line gripper allows for quick line adjustments to ensure baits are always in the strike zone.

# GHOST CARBON

Lunkerhunt Ghost Carbon fishing line creates the perfect stealth presentation for your fishing lure or bait. Ghost Carbon is made from 100% fluorocarbon material, is virtually invisible under water, and is fast sinking. Strong abrasion resistance and low stretch give you the confidence to perform the perfect hook set.

## PRODUCT FEATURES

- Turns invisible under water
- Low stretch
- Highly abrasion-resistant
- 100% Fluorocarbon

# HI-VIS SINKING BRAID

This extension on the Lunkerhunt Sinking Braid line is sure to stand out from the crowd. Hi-Vis Sinking braid packs all the great features of the Lunkerhunt Sinking Braid, but this year launches in a new Hi-Visibility fluorescent yellow. These types of braids are perfect to help you see when the slightest strikes occur, especially when fishing finesse or weightless presentations and on windy days.

## PRODUCT FEATURES

- 8+1 strand Braid PTFE Fiber Core
- Fast sinking
- Low memory
- Smaller diameter
- Less friction
- Super soft
- Ultra durable
- Super sensitive
- Long casting
- Zero stretch

# AUX

The Lunkerhunt AUX Combos offer anglers a great fishing experience while looking great with these eye-catching colors. The 7' medium heavy 2-piece rod offers the angler durability and sensitivity with the pure carbon blank construction. The rod also comes equipped with a comfortable EVA handle, a premium reel seat and low friction ceramic guides. The interchangeable 2000 size spinning reel comes with 5BB, reinforced bail wire and a CNC handle with EVA knob for extra grip, feel, and comfort.

## REEL FEATURES

- 2000 series size
- 5.2:1 gear ratio
- Premium 5BB + OWC
- Line capacity (mm/m)  
0.18/360 0.20/290 0.25/185
- 6 kilograms / 13 pounds of drag
- Weight: 9.3oz
- Reinforced bail wire
- CNC handle with EVA knob
- Non-slip front drag system
- Long life bail spring
- Excellent line lay oscillation system

## ROD FEATURES

- Length: 7'
- Medium Heavy power
- Fast Action
- Two piece configuration
- Pure carbon blank for strength and sensitivity
- EVA grips
- Premium reel seat and components
- Premium low-friction ceramic guides

# S7 PRIME

## SPINNING ROD COMBO

The Lunkerhunt S7-Prime Rod and Reel Combo not only looks sleek but will also fish with the best of them. The 2-piece pure carbon blank comes in at 7' and offers the angler a medium heavy power with fast action, good for any type of fishing. Comes fully equipped with a premium reel seat, non-slip handles and low-friction ceramic guides. The just as sleek looking 5BB 2000 size reel has an interchangeable handle and a nonslip rubber knob.

### REEL FEATURES

# LUNKERHUNT LTS BACKPACK

The Lunkerhunt Tackle Backpack is designed to hold lots of gear without weighing you down. A water-resistant, up-right design is convenient and comfortable with adjustable, padded straps.

The spacious 30L interior includes three plastic tackle trays, while the exterior features two adjustable rod holders, a large side pocket, and a large front pocket.

All pockets have cinch-closures for convenience, and can be secured tightly with buckled straps.

# LUNKERHUNT LTS AVID DUFFEL

The Lunkerhunt LTS Avid Duffel has a unique design that allows you to custom-compartmentalize all your gear for your individual needs. Inspired by the convenience of adjustable tackle trays, the Avid Duffel features an interior wall that can be easily moved around to separate and organize all your gear, and comes with four plastic tackle trays.

Made of a tough, water-resistant PVC-coated material to keep your gear dry and secure, it features handle and strap options to make transit easy. Ensuring no gear is left behind, we outfitted this 48L carry-all with a mesh water bottle holder, built-in carabiner slot, ample side pocket compartments, and a MOLLE mesh onto which you can strap or clip on additional gear.

## **LUNKERHUNT <sup>LTS</sup>** **AVID SATCHEL**

Small but mighty, the Lunkerhunt Avid Satchel is a stand-out compact bag that won't weigh you down. Built for the shore, river, and stream fisherman, this bag fits all your required essentials, making mobility a breeze when fishing or hiking between spots.

The primary and secondary pockets are equipped with zipperless, water-resistant, fast-entry openings that eliminate the potential for zippers getting caught. Finished off with a water-resistant PVC-coated construction, you'll enjoy peace of mind knowing that your gear is always safe, secure and dry.

# LUNKERHUNT LTS AVID BACKPACK

No boat? No problem. Lunkerhunt's LTS Avid series backpacks are feature-heavy bags built to handle the roughest of treks. TPE-coated waterproof fabric and heat-sealed seams provide a water-resistant base for this 48L hauler, which includes two plastic tackle trays and a spacious interior designed to hold all your gear.

Making fishing-on-the-go easier and safer are superior organizational features, such as two adjustable rod holders that free up your hands when on the move, and a shoulder-strap mounted pliers holder to keep the most important tool in your arsenal always within reach.

The Avid Backpack also comes with a built-in carabiner, mesh water bottle holder, watertight side pocket perfect for valuables, and MOLLE mesh onto which you can strap or clip additional gear. The dry pack clip closure and bottom carry straps round out the remaining features of the Lunkerhunt LTS Avid Backpack.

## AVID MESSENGER

# MULTIPLE REMOVEABLE STORAGE OPTIONS

Our newest addition to our Tackle Storage/Bag Lineup is our LTS AVID Messenger Bag! This ultra-versatile bag provides organized storage options, with built-in plier holder/pocket on the shoulder strap, and molle webbing for attaching accessories, and is made with water-resistant TPE fabric. The LTS AVID Messenger bag also includes a 3700-size tackle storage tray, two removable smaller bags to easily have those “go-to” accessories or baits out and readily accessible. There’s lots of room for all that an angler would need for a day on the water.

**AVID TACKLE PACK**

# PACKS A REAL PUNCH

The Lunkerhunt Tackle Pack carries all your fishing trip essentials in a compact, comfortable, and stylish sling bag. It comes with 3 tackle trays and plenty of storage compartments, including a clear zipper pocket on the inside, so you can see where gear is stored and keep fishing for fish, instead of fishing through pockets. The strap can be set to either side of the bag to ensure it doesn't get in the way of your next cast. Built strong to hold all your weights and whatever else you can throw at it, the LTS Tackle Pack is a must-have for anglers who like to be on the move. On your next adventure, make sure you bring a bag that can keep up with you.
